SHRINK YOURSELF INTO WUNDERLAND

State-of-the-art virtual reality technology enables you to experience the tiny world with all your senses, as you take a walk across the Wunderland as a miniature figure. A joint high-tech adventure presented by Europa-Park and Miniatur Wunderland on a giant adventure space.
Tip: Holders of a combined ticket for YULLBE WUNDERLAND and Miniatur Wunderland can enter the exhibition at any time, without having to wait.

OUR BISTRO

A wide selection of freshly prepared food and drinks is available at our bistro on the 2nd floor. We try our best to keep our prices as low and family-friendly as possible, and to cater for all tastes. We didn't forget about our youngest visitors either, of course. After all, we want everyone to be happy and well-fed at Miniatur Wunderland! In addition to a live-cooking area where pasta dishes are prepared before your eyes, there is always a choice of tasty seasonal daily specials. We also have a lovely play area where the kids can let off some steam, while their parents are enjoying a snack.

A GLIMPSE OF THE MENU

Giant currywurst sausage with chips, fried fish with potato salad, fresh salads, daily specials, vegetarian chili, Vienna style schnitzel with chips, baked potato, and pasta with tomato sauce – also available as a children's portion.

UNPARALLELED MINIATURE WORLD

We started building our lifetime project more than 20 years ago, in December 2000. Our dream was to build the world's biggest model railway exhibition. Since then, hundreds of thousands of details have been created in almost a million working hours. Taking a closer look is definitely worthwhile, as some of the loveliest and most carefully crafted details can be easily missed at first glance. You will visit various theme worlds on your trip around the Wunderland, ranging from fantasy cities, via diverse landscapes, through to model making masterpieces. More than 20 million visitors have embarked on a discovery tour on a scale of 1:87 to date. We cannot wait to welcome you at Germany's most popular tourist attraction, too!

VENICE

Let your imagination run free at Miniatur Wunderland: a day lasts just 15 minutes thanks to the simulated rhythm of day and night. Once dusk sets in, the installation is bathed in the enchanting light of almost 500,000 LEDs.

A very special attraction is the world's tiniest civil aviation airport: featuring more than 40 planes and the corresponding ground staff, the 125 square metres big installation may well be the most elaborate flight simulation anywhere. For more than 20 years now, we have been creating stories characterised by great attention for detail. The colourful and lively Rio de Janeiro theme world opened on 1 December 2021. But we are far from done: further parts of South and Central America, such as Patagonia, the rainforest and the Caribbean will be created over the next few years. In addition, we are busy expanding Europe. Monaco and Provence are due to be added to the world map of Miniatur Wunderland very soon. What's next?

Just wait and see!
